

AEGON releases details of AIG exposure

In the light of the actions of the Federal Reserve Board, AEGON releases details of its exposure to AIG.

- AEGON does not hold common equity in AIG.
- During 2008, AEGON has actively lowered its exposure to AIG by approximately 20%. As of September 18, 2008, AEGON had a total general account gross exposure of:
 - EUR 189 million to the AIG holding company.
 - EUR 311 million to AIG operating companies, including American General Finance, SunAmerica Life and International Lease Finance Corp.
- AEGON believes that credit exposure to the AIG holding company requires a different assessment than exposure to the operating companies.
- Any effect of credit losses on AEGON's excess capital and net income will be substantially lower as a result of a variety of factors, including taxes and recovery values.
- AEGON has limited counter party exposure to AIG through general insurance contracts. The potential effect of non-performance on these insurance contracts is not expected to have a material impact on the Group's earnings or capital position.
