

About Aegon

Aegon's roots date back 175 years – to the first half of the nineteenth century. Since then, Aegon has grown into an international company, with businesses in the Americas, Europe and Asia. In the US, Aegon's largest market, we operate under the Transamerica brand. Today, Aegon is an integrated, diversified financial services group that offers innovative and effective investment, protection, and retirement solutions to customers. Aegon never loses sight of its purpose, to help people achieve a lifetime of financial security.

Our purpose

Aegon's purpose is to help people achieve a lifetime of financial security.

Our future vision

Driven by our purpose, Aegon believes everybody deserves a secure future. We are attuned to that need for financial security for our customers in a world where people are in general living and working for longer. Our future vision is to become a leader in investment, protection, and retirement solutions. We will do this by building on our strengths today.

We are well-positioned with trusted brands and leading retirement platforms in attractive markets where the key dynamics are in our favor. We operate in some of the largest and most advanced retirement and investment markets in the world: the US, the UK and the Netherlands. In addition to these three core markets, we have decided to focus on three growth markets - Spain & Portugal, China and Brazil - and one global asset manager.

Demographic realities in our chosen markets and low interest rates mean our customers need to save more, not less. In addition, governments, and other institutions, who in the past organized and – in many cases guaranteed retirement benefits – are shifting responsibility for long-term savings and retirement planning to households and individuals. As a result, customers in our markets take on greater individual responsibility and need more investment, protection, and retirement solutions.

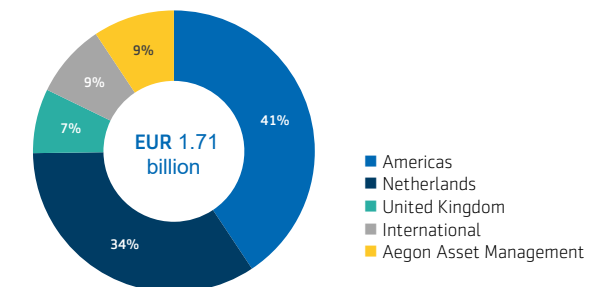

We have the distribution reach, and strength to provide our propositions to our customers, who will increasingly benefit from more sophisticated and tailored digital services and advice. Over the many decades, we have built deep expertise in designing product solutions, managing risk, managing assets, selecting third party asset managers, building distribution, and reaching customers to help them achieve a lifetime of financial security.
