

The information included in the following sheets of this Excel file forms an integral part of the AEGON press release on the First nine months results 2009

Cautionary note regarding non-GAAP measures

This press release includes certain non-GAAP financial measures: net operating earnings, operating earnings before tax, underlying earnings before tax, net underlying earnings and value of new business. The reconciliation of underlying earnings before tax and operating earnings before tax to the most comparable IFRS measures is provided on the "Financial Overview (geographically)" tables. A reconciliation of (net) underlying earnings to operating earnings before tax is provided on the "over/under performance of fair value items" tables.

Value of new business is not based on IFRS, which are used to report AEGON's quarterly statements and should not be viewed as a substitute for IFRS financial measures.

AEGON believes that these non-GAAP measures, together with the IFRS information, provide a meaningful measure for the investment community to evaluate AEGON's business relative to the businesses of our peers.

Local currencies and constant currency exchange rates

This press release contains certain information about our results and financial condition in USD for the Americas and GBP for the United Kingdom, because those businesses operate and are managed primarily in those currencies. Certain comparative information presented on a constant currency basis eliminates the effects of changes in currency exchange rates. None of this information is a substitute for or superior to financial information about us presented in EUR, which is the currency of our primary financial statements.
