Cautionary note regarding non-GAAP measures
This presentation includes certain non-GAAP financial measures: underlying earnings before tax and value of new business. The reconciliation of underlying earnings before tax to the most comparable IFRS measure is provided in Note 3 “Segment information” of our Condensed consolidated interim financial statements. Value of new business is not based on IFRS, which are used to report AEGON's primary financial statements and should not be viewed as a substitute for IFRS financial measures. We may define and calculate value of new business differently than other companies. Please see AEGON’s Embedded Value Report dated May 12, 2010 for an explanation of how we define and calculate. AEGON believes that these non-GAAP measures, together with the IFRS information, provide meaningful supplemental information that our management uses to run our business as well as useful information for the investment community to evaluate AEGON's business relative to the businesses of our peers.

Local currencies and constant currency exchange rates
This presentation contains certain information about our results and financial condition in USD for the Americas and GBP for the United Kingdom, because those businesses operate and are managed primarily in those currencies. Certain comparative information presented on a constant currency basis eliminates the effects of changes in currency exchange rates. None of this information is a substitute for or superior to financial information about us presented in EUR, which is the currency of our primary financial statements.

Forward-looking statements
The statements contained in this presentation that are not historical facts are forward-looking statements as defined in the US Private Securities Litigation Reform Act of 1995. The following are words that identify such forward-looking statements: aim, believe, estimate, target, intend, may, expect, anticipate, predict, project, counting on, plan, continue, want, forecast, goal, should, would, is confident, will, and similar expressions as they relate to AEGON. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. We undertake no obligation to publicly update or revise any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which merely reflect company expectations at the time of writing. Actual results may differ materially from expectations conveyed in forward-looking statements due to changes caused by various risks and uncertainties. Such risks and uncertainties include but are not limited to the following:

- Changes in general economic conditions, particularly in the United States, the Netherlands and the United Kingdom;
- Changes in the performance of financial markets, including emerging markets, such as with regard to:
  - The frequency and severity of defaults by issuers in our fixed income investment portfolios; and
  - The effects of corporate bankruptcies and/or accounting restatements on the financial markets and the resulting decline in the value of equity and debt securities we hold;
- The frequency and severity of insured loss events;
- Changes affecting mortality, morbidity, persistence and other factors that may impact the profitability of our insurance products;
- Changes affecting interest rate levels and continuing low or rapidly changing interest rate levels;
- Changes affecting currency exchange rates, in particular the EUR/USD and EUR/GBP exchange rates;
- Increasing levels of competition in the Americas, the Netherlands, the United Kingdom and New Markets;
- Changes in laws and regulations, particularly those affecting our operations, the products we sell, and the attractiveness of certain products to our consumers;
- Regulatory changes relating to the insurance industry in the jurisdictions in which we operate;
- Acts of God, acts of terrorism, acts of war and pandemics;
- Changes in the policies of central banks and/or governments;
- Lowering of one or more of our debt ratings issued by recognized rating organizations and the adverse impact such action may have on our ability to raise capital and on our liquidity and financial condition;
- Lowering of one or more of insurer financial strength ratings of our insurance subsidiaries and the adverse impact such action may have on the premium writings, policy retention, profitability of its insurance subsidiaries and liquidity;
- The effect of the European Union’s Solvency II requirements and other regulations in other jurisdictions affecting the capital we are required to maintain;
- Litigation or regulatory action that could require us to pay significant damages or change the way we do business;
- Customer responsiveness to both new products and distribution channels;
- Competitive, legal, regulatory, or tax changes that affect the distribution cost of or demand for our products;
- The impact of acquisitions and divestitures, restructurings, product withdrawals and other unusual items, including our ability to integrate acquisitions and to obtain the anticipated results and synergies from acquisitions;
- Our failure to achieve anticipated levels of earnings or operational efficiencies as well as other cost saving initiatives;
- Our inability to obtain approval from the Dutch Central Bank to repay our core capital securities; and
- Our inability to divest Transamerica Reinsurance on terms acceptable to us.

Further details of potential risks and uncertainties affecting the company are described in the company’s filings with Euronext Amsterdam and the US Securities and Exchange Commission, including the Annual Report on Form 20-F. These forward-looking statements speak only as of the date of this document. Except as required by any applicable law or regulation, the company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the company’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

- Aim to resume dividend payments on common shares after full repurchase of core capital securities
- Intent to pay a dividend over H2 2011 of EUR 0.10 in May 2012*
- Dividends may be paid in cash or stock at the election of the shareholder

* Market conditions permitting and assuming compliance with AEGON’s dividend policy – see slide 18
AEGON aspires to be a company that delivers:

- Sustainable earnings growth
- Improved risk-return profile
- Strong capital position
- Sustainable cash flows and dividends
Appendix – dividend policy
AEGON’s dividend policy

- AEGON N.V. aims to pay out a sustainable dividend to allow equity investors to share in the performance of the company, which can grow over time if performance of the company so allows. After investment in new business to generate organic growth, capital generation in AEGON’s operating subsidiaries is available for distribution to the holding company, while maintaining a capital and liquidity position in the operating subsidiaries in line with AEGON’s capital management and liquidity risk policies.

- AEGON N.V. uses the cash flows from the operating subsidiaries to pay holding expenses, including funding costs. The remaining cash flow from operating units to AEGON N.V. is available to execute AEGON’s strategy and to fund dividends on its shares, subject to maintaining the holding company targeted excess capital. Depending on circumstances, future prospects and other considerations, AEGON’s Executive Board may elect to deviate from this target. The Board will also take capital position, financial flexibility, leverage ratios and strategic considerations into account when declaring or proposing dividends on common shares.

- In normal circumstances, AEGON would expect to declare an interim dividend when announcing its second quarter results and to propose a final dividend at the Annual General Meeting of Shareholders for approval. Dividends would normally be paid in cash or stock at the election of the shareholder. The relative value of cash and stock dividends may vary. Stock dividends paid may, subject to capital management and other considerations, be repurchased in order to limit dilution.

- AEGON’s Executive Board currently intends to resume dividend payments on its common shares after the full repurchase of the Convertible Core Capital Securities issued to the Dutch State, which AEGON expects to occur by the end of June 2011. Absent unforeseen circumstances, AEGON’s Executive Board intends to propose a final EUR 0.10 dividend per common share at the Annual General Meeting of Shareholders in 2012 covering the second half of 2011.

- When determining whether to declare or propose a dividend, the Executive Board of AEGON has to balance prudence versus offering an attractive return to shareholders, for example in adverse economic and/or financial market conditions. Also, AEGON’s operating subsidiaries are subject to (local) insurance regulations which could restrict dividends to be paid to AEGON N.V. There is no requirement or assurance that AEGON will declare and pay any dividends.
Appendix – Q4 2010 results
Underlying earnings increased due to Americas and New Markets

- Americas’ earnings up 6%, including benefit plan release of USD 38 million
- Earnings in the Netherlands lower due to adverse mortality and lower investment income
- Earnings in the UK impacted by GBP 25 million customer redress charge
- New markets rose due to the inclusion of asset management and the contribution of VA Europe, partly offset by investments in Asia
Operating expenses increased, mainly due to currency effects

- Compared with Q4 2009 operating expenses remained level at constant currencies
  - Savings and lower benefit plan costs in the Americas were offset by restructuring costs
- FY 2010 operating expenses of EUR 3.4 billion increased 3% compared with 2009, mainly due to currency effects
  - Excluding currency effects, restructuring and US employee benefit plan charges, operating expenses declined 2% during 2010
