Delivery on strategic objectives

- 50% stake in CAM sold for EUR 449.5 million; realized EUR 1 billion from Spanish divestments (CAM, Cívica, Unnim)
- Acquisition in Ukraine closed, integration process started
- Shift from spread to fee-based products; strong VA, pension, mutual fund sales and reduction of spread balances
- Focus on less interest rate sensitive products: strong sales of health and fee-based products

- Proposal to cancel preferred shares: simplified capital structure while maintaining a high-quality capital base
- Continued focus on writing profitable business, significant increase in market consistent value of new business
- Award winning businesses: UK platform awards, Hungary award winning App, US pensions 84 “best in class cups”, Aegon Asset Management wins Lipper and Morningstar awards, NL on-line travel insurance is “Best Buy”

- Company-wide investments in technology to increase direct engagement with customers
- Customer License Programs launched to have non-customer facing employees experience client contact to enhance their customer focus

- Employee engagement further improved, evidenced by global employee survey
- On-line Learning Catalogue for on-the-job training, E-learning and specialty training programs

Sales momentum continues – evidence of our strategic focus

- New life sales increased 12% to EUR 499 million
  - Life single premiums in the Netherlands rose 41% driven by Dutch pensions following strong market proposition and higher mortgage production in anticipation of changes in fiscal regulation in 2013
  - UK sales 37% higher, benefiting from auto enrollment, strong group pension sales and accelerated platform sales
  - US new life sales lower after pulling UL secondary guarantee product driven by focus on value creation

- Gross deposits 9% lower at EUR 10 billion (3% lower excluding Stable Value Solutions)
  - US VA deposits 34% higher benefiting from strong distribution network, retail mutual fund deposits 57% up, more than offset by sharply lower Stable Value Solutions of which balances are targeted to be maintained at current levels
  - Asset Management deposits of EUR 2.3 billion, lower compared with strong Q1 last year

- Accident & health and general insurance up 14% to EUR 239 million
  - New Medicare product in the US main driver of sales

Strict pricing discipline drives 86% increase in market consistent VNB

- Market consistent value of new business in the Americas doubled
  - VA benefited from continued sales momentum and higher interest rates
  - Life up on repricing and redesign of products

- In the Netherlands value of new business increased significantly
  - Lower funding costs for mortgages
  - Increased pension production

- Higher pension sales more than offset by lower margins in the UK

- Strong market consistent value of new business improvement in Asia offset by divestments in Spain
Significant sales increase in US variable annuities and retail mutual funds

- Variable annuity gross deposits 34% higher to USD 1.6 billion
  - Adding scale and diversification through alternative distribution channels
    - Launched private label variable annuity product with ING U.S. in May
  - Key competitors reduced sales targets or made products less competitive
  - 43% of sales deposited in Aegon Asset Management managed funds
  - Market consistent value of new business up on improved market conditions and higher sales
  - Net deposits increased 93% due to higher sales and lower decrement rates

- Retail mutual fund deposits 57% higher to USD 1.2 billion
  - ~35% of Q1 sales from funds developed in 2011 or later
  - >50% of sales deposited in funds managed by Aegon Asset Management
  - Net deposits up significantly on higher sales
Early signs of success for UK platform

- Total UK sales up 37% on accelerated platform sales, auto enrollment, strong group pension sales and a successful marketing campaign
- ~800 advisors signed up to use the “AEGON Retirement Choices” platform
- ~1,100 advisors signed up to use new “One Retirement” product
- 8 new schemes on platform in Q1
- New corporate distribution deal signed with Barclays Bank

Awards for best Workplace Savings platform and most innovative platform
Unique opportunity in Dutch pension market

- Dutch pension funds seeking insured solutions
  - Buy out market for liquidating pension funds creates unique opportunity
    - 300 pension funds (OPF), EUR 6 billion in annual premiums, EUR 175 billion assets and 700,000 active participants
  - Driven by higher equity market and reduced benefits, pension fund coverage ratios now average 107%*
  - IAS 19 adds unwanted earnings volatility for companies
  - Additional regulatory pressure

- Aegon well positioned to benefit from market opportunity
  - Largest provider of insured pension solutions
  - Strong solvency: NL IGD ratio of ~265 %
  - Operational excellence and customer focus driving successful growth
  - Creative solutions for longevity risk
    - Aegon completed first ever longevity hedge in continental Europe in 2012, proving expertise and increasing flexibility

* Aon Hewitt – March 31, 2013
Underlying earnings stable despite divestments in Spain

- Americas up on growth in pensions and life partly offset by lower fixed annuity earnings as well as higher sales and employee performance related expenses of EUR 13 million
- Underlying earnings in the Netherlands up on improvement in Life & Savings and Non-life
- UK lower on adverse persistency in pensions and favorable timing of expenses in Q1 last year
- New markets earnings lower mainly due to divestments in Spain (EUR 14 million)
- Holding & other improved due to lower interest expenses following debt redemption

Underlying earnings before tax (EUR million)
Underlying earnings before tax Q1 13

- Fair value items impacted by equity hedging losses following strong equity markets
- Gains on investments are the result of normal trading and asset liability management
- Impairments, at 5 year low, mainly related to mortgages in the Netherlands and Hungary
  - In the US impairments were fully offset by recoveries
- Other income impacted by US Social Security death master-file accrual of EUR (81) million offset by recapture of reinsurance contracts of EUR 85 million

Net income impacted by fair value items loss
Increased equity hedging to protect the capital base

- Additional hedging put in place during 4Q12 – equity collar macro hedge
  - Provides tail risk protection in extreme market conditions – increased protection against down market scenarios while decreasing equity exposure in up markets
  - IFRS results are expected to be USD ~25 million per quarter on the equity collar macro hedge*
  - S&P 500, the driver for the collar hedge, up 11% during 1Q13 resulting in USD (134) million loss in fair value items
- Guidance of USD ~(70) million per quarter on existing IFRS macro hedge maintained*
  - Equity indices rose on average 10% during 1Q13 resulting in USD (147) million loss in fair value items
- Hedging losses recorded in 1Q13 are offset by higher future underlying earnings resulting from fee revenues on higher account balances

High quality Dutch mortgage portfolio

- Aegon’s Dutch residential mortgage portfolio amounts to EUR 22.8 billion by the end of Q1 2013
  - Representing a market share of 3.5% of outstanding mortgages
- Mortgage loss development shows a historically strong performance of the portfolio
  - 55% of Aegon’s Dutch mortgage portfolio and ~80% of new production since Q1 2012 guaranteed by the Dutch state (NHG guaranteed)
  - Strong in-house underwriting and strict arrears and collection procedures
  - Full recourse on borrower as debt remains fully enforceable after repossession
  - Impairments have increased but have not resulted in above average losses
- Market characteristics
  - Predominantly prime, owner occupied
  - “Full-doc” underwriting, no self certification of income
  - Industry wide credit database (BKR) used for underwriting
  - Strong social support and pension system

Mortgage impairment and loss development (in bps of Dutch residential mortgage portfolio)

- Impairments
- Losses
Expenses in the Americas increased mainly on higher performance and sales related expenses of EUR 13 million partly offset by cost savings.

Cost savings drove lower expenses in the Netherlands offset by investments in new distribution capabilities.

UK expenses increased as Q1 2012 benefited from favorable timing of expenses.

New markets expenses up on investments and Hungarian insurance tax.

New life sales decreased in the Americas driven by lower universal life sales due to product withdrawals and product redesign.

Higher pension sales in the Netherlands resulting from improved competitive position.

Sales in the UK increased 37% driven by higher group pension deposits and additional platform sales as more advisors joined the award-winning Aegon Retirement Choices (ARC) platform.

New Markets sales decreased as stable sales in CEE and higher sales in Asia were offset by lower sales in Spain due divestments of partnerships.

US variable annuity deposits increased 34%, despite re-pricing to ensure profitability
Retail mutual fund deposits increased 57%, strong across all distribution channels
Strong retirement plan deposits driven mainly by successful efforts to increase inflows from existing clients through higher contributions and larger participant count
Asset management inflows as a result of institutional sales in the US and the Netherlands, and retail sales in the UK
Market consistent value of new business of EUR 232 million

- MCVNB for the Americas increased due to sales growth and improved markets for variable annuities and active repricing and redesign of life products
- MCVNB in the Netherlands up primarily due to lower funding costs for mortgages and increased pensions production
- MCVNB in the UK lower as higher pensions sales were more than offset by lower margins
- New Markets MCVNB lower as improvements in Asia were offset by divestments in Spain and lower production in Poland

Underlying earnings before tax increased as continued business growth in pensions and life was only partially offset by lower fixed annuity earnings.

Operating expenses increased as higher sales and employee performance related expenses more than offset realized cost savings.

New life sales decreased following withdrawal of universal life secondary guarantee single life product and lower indexed universal life sales.

Higher gross deposits in variable annuities and retail mutual funds were more than offset by lower gross deposits in stable value solutions as total balances are targeted at ~USD 60 billion.
• Higher underlying earnings before tax driven primarily by favorable funding rates and lower expenses
• Operating expenses decreased as realized benefits from cost savings program more than offset investments in new distribution capabilities
• Higher pension sales resulting from an improved competitive position
• Gross deposits declined driven by more competitive pricing by banking sector peers

Underlying earnings before tax decreased as the benefit from higher equity markets was offset by adverse persistency following implementation of the Retail Distribution Review.

Higher operating expenses were driven by the non-recurrence of favorable timing differences and higher business transformation expenses.

Strong sales in the UK driven by higher group pension deposits and additional platform sales as more advisors joined the award-winning Aegon Retirement Choices (ARC) platform.

Increase in gross deposits driven by growth of ARC platform.
Underlying earnings before tax declined mainly driven by divestments in Spain

Operating expenses increased as the result of higher costs in CEE, Asset Management, Asia and VA Europe driven by investments to support future growth

New life sales lower as stable sales in CEE and higher sales in Asia were offset by lower sales in Spain due to the exclusion of CAM and Cívica

Lower gross deposits in asset management driven by non-recurrence of exceptionally large single deposits
Capital allocated to run-off businesses

- Current capital allocated to run-off businesses of USD 2.4 billion
  - Return on capital of run-off businesses of 0.2% year to date
