Our purpose

Humans are living longer. At Aegon, we are excited by the opportunities this brings. We are here for everyone who wants to make the most of their time on our planet and leave it a little better than they found it. That is why our purpose is *Helping people live their best lives*.

Our vision

With our strategy, we are positioning Aegon to be a leader in investment, protection, and retirement solutions. We also seek to have a positive impact on society by balancing our financial objectives with our sustainability ambitions.

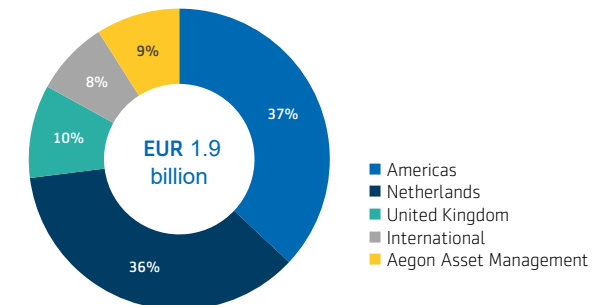

We will do this by building on our strengths today. We are well-positioned with trusted brands and leading retirement platforms in attractive markets where the key dynamics are in our favor. We operate in some of the largest and most advanced retirement and investment markets in the world: the US, the UK, and the Netherlands¹⁾. In addition to these three core markets, we focus on three growth markets - Spain & Portugal, China, and Brazil - and one global asset manager.

Over the many decades, we have built deep expertise in designing investment, protection, and retirement solutions, managing risk, managing assets, building distribution capabilities, and finding new ways to engage with our customers and build close, personal connections. We have the global reach to deliver our propositions to our customers, who will increasingly benefit from more sophisticated and tailored digital services and advice.

The life ahead

As their lives become longer and more varied, our customers want a financial services company that gives them the confidence and flexibility to find their way – while at the same time, letting them contribute to a better world. We help our customers live their best lives by providing them with advice, products and solutions that enable them to make all the necessary transitions and take the opportunities that a long life will bring.

Operating result Full year 2022

¹⁾ On October 27, 2022, Aegon announced that it has reached an agreement with a.s.r. to combine its Dutch pension, life and non-life insurance, banking, and mortgage origination activities with a.s.r. The closing of the transaction is subject to customary conditions. Based on the required steps, and necessary approvals, the transaction is expected to close in the second half of 2023.
